

Why do more homeowners in AZ trust American Solar Electric with their photovoltaic system installation than any other company?

COMPARE US AND SEE WHY THE DIFFERENCE IS **NIGHT & DAY.**

	AMERICAN SOLAR ELECTRIC	THE OTHER GUYS	WHY THIS IS IMPORTANT
OVER 3,000 PV SYSTEMS INSTALLED IN ARIZONA	Yes		Don't be a guinea pig for an unproven startup company. Experience matters!
OVER 10 YEARS IN OPERATION	Yes		With a product designed to operate for decades, shouldn't you choose an installer likely to do the same?
ARIZONA-BASED COMPANY	Yes		American Solar Electric has unique knowledge in how to design systems for Arizona's intense climate.
LICENSED ROOFING CONTRACTORS	Yes		PV installations require significant roof integration. Be sure that your installer has the right expertise. Check their license!
CLEAN ROC & BBB HISTORY	Yes		A quick search with the AZ Registrar of Contractors & the Better Business Bureau can save you from a costly mistake.
NAME-BRAND, BEST IN CLASS COMPONENTS FOR RELIABILITY	Yes		A low price is only a good value if the products deliver on their promises. We only install components that do.
ON-SITE ROOF INSPECTION W/ DIGITAL SHADE ANALYSIS	Free		To ensure the best-designed system and realistic production estimate, there is no substitute for an on-site inspection.
WORKMANSHIP & PRODUCTION GUARANTEE	10 yrs		What good is an estimate without a binding guarantee? We stand behind our work, and we put it in writing.
