

NRG Solar partners with ASU to create pioneering solar installation

August 24, 2011

Visitors to Arizona State University's Tempe campus soon will be shaded when parking in a lot adjacent to Sun Devil Stadium by an innovative, patent-pending solar structure design that generates 2.1 megawatts (MW) of electricity.

NRG Energy has partnered with Arizona State University to provide an innovative 2.1 megawatt solar structure in a parking lot adjacent to Sun Devil Stadium.
