

Phoenix Solar Energy Company, American Solar, Publishes Fourth Resource Guide in Educational Series for Arizona Homeowners

Newest Resource Guide Discusses How to Evaluate Vendors and Select the Right Partner

Scottsdale, AZ ([PRWEB](#)) December 22, 2011 -- [Phoenix solar energy company](#), American Solar, announces its newest resource guide for Arizona homeowners titled “Residential Solar Guide: How to Evaluate Vendors and Select the Right Partner.” The final in a four-part series, this document continues the company’s educational series on residential solar power.

The guide highlights the steps homeowners should take when selecting a solar energy company. The document explains what homeowners should know before contacting potential contractors, how to find solar qualified contractors and what credentials they should have. Additional information includes:

- How to evaluate their current situation and answer important questions such as current energy usage and available funding for a solar installation.
- How to evaluate the qualifications of solar contractors.
- What information the solar company should provide to you.

“Learning all about solar energy – how it works, how it saves money, what it costs, how it can be financed -- is a major undertaking and can become somewhat overwhelming for many homeowners,” said Sean Seitz, president of American Solar. “However, selecting an experienced solar contractor can simplify the educational process. In addition, the right solar partner will help homeowners meet expectations for their solar project and achieve the desired level of success throughout the life of the system.”

Interested parties can download the latest resource guide at [AmericanPV.com](#), or call 480-994-1440 for a copy. The first three guides, titled “[How Solar Works and Why It’s a Good Choice Today](#),” “[How Solar Saves Money and Why It’s Affordable](#)” and “[How to Invest in Solar and Boost Long-Term Savings](#),” are also available for download.

ABOUT AMERICAN SOLAR

American Solar is an Arizona-based design-build firm specializing in photovoltaic (solar electric) power and solar hot water systems and roofing. Headquartered in Scottsdale, the company has served over 3,500 customers and has installed over 19 megawatts of photovoltaic power in the State of Arizona. Additionally, American Solar is partnered with nine homebuilders, across 39 communities, who can attest to the importance of offering renewable technologies to gain a competitive advantage. American Solar’s expertise in the industry assures a homebuilder that they are offering the optimal solar solutions to their customers.
