

THIS JUST IN! APS \$1.00/WATT INCENTIVE HERE TO STAY FOR 2011!

The Arizona Corporation Commission voted today to keep the APS solar electric incentive at \$1.00/watt for the remainder of 2011.

If you have signed up with a contractor that has promised you an increased incentive of \$1.45/watt on October 1st, you need to call them ASAP and let them know all incentive applications from APS in 2011 will be paid \$1.00/watt!

If your contractor cancels your project due to the incentive change, we're ready to assist. A competitive offer from American Solar is a smart move and guarantees that the investment you make in solar today will pay you dividends for years to come! We've been servicing solar customers in Arizona for over a decade. Who else can say that?

As always, we are here as your trusted solar adviser and turnkey solar installer. When you work with American Solar our dedicated staff handles every step of the process for you. We have installed 3,200 solar electric systems in Arizona and our customers will gladly share their stories with you.

We are an APS Qualified Solar Installer

Sincerely,

Sean M. Seitz
President
